TIME FOR TEA: YOUTH OF UZHGOROD and LEADERS

Meeting with Mr. Oleg Luksha, director of International Institute of humanity and globalization “Noosphere”

Uzhhorod Youth joined the initiative "TIME FOR TEA" that was initiated by Momentum World organization.

Aim of the project: To find a direct way to convey youth messages to the leader chosen by the youth. All that is required is that every day the leader spending 5 minutes during drinking a cup of delicious tea thinks about something that is important and actual for youth.

Group of young people 17-21 aged from Uzhgorod, Ukraine, representatives of European School "Alliance", (created on the basis of the International Association of Institutions for Regional Development "IARDI") developed short messages / issues they consider important. They chose their leader to hear and listen to their messages. To do this, young group has developed an original and creative package / bags with tea for the leader. *More than 300 youth representatives from Ukraine and other countries participated in this initiative. They proposed their questions and messages within the survey organized by the Uzhhorod group.* The best messages had been offered inside tea packages.

On the 31-st of January, 2015 the youth group "Alliance" met with the director of the International Institute of Humanity and globalization "Noosphere", Mr.Oleg Luksha.

The meeting was held in a friendly atmosphere. Young people asked a large number of the most important and actual questions, they had a conversation in an informal atmosphere between the leader and the youth.

Representatives of the youth organization "European School "Alliance"" asked questions about the situation on the East of Ukraine, as well as issues of energy

consumption of Ukraine. They asked questions on the use of alternative energy, environment and pollution of the Transcarpathian region.

It was the first step of the initiative “TIME FOR TEA” in Ukraine and we are sure that youth groups in Ukraine will continue this initiative in future. It is very useful for creation the negotiation between leaders and young generation.
